

# What is Trilogy?

Trilogy is a 501(c)(3) nonprofit organization that provides integrated behavioral health and primary care. We provide services and comprehensive resources that support people in mental health recovery to move toward stability and live independently in the community.

## Who does Trilogy serve?

The majority of people Trilogy serves live with serious mental illness (schizophrenia or schizoaffective disorders, bipolar disorders, depression, or other diagnosis). Most clients face additional barriers to stability. The majority have very low income and receive Medicaid, many have chronic physical health issues and/or substance use disorders, and 25% of clients are experiencing homelessness at intake.

Trilogy strives to remove these barriers through custom-tailored service plans that promote wellbeing and independence.

## Where does Trilogy work?

Trilogy serves people across Chicago. We meet clients where they are, and where they are most comfortable.

# TRILOGY

Mental Wellbeing

A Way In. A Way Back. A Way Up.

## Our Mission and Vision

Trilogy's mission is to provide comprehensive integrated care that enables people in mental health recovery to build meaningful and independent lives.

We envision a society where everyone impacted by mental illness is valued, embraced, and supported holistically, systematically, and culturally; where the stigma of mental illness is eliminated; and where quality of care is not determined by socioeconomic status.

## Our Services

Recovery and wellbeing are different for each person, so Trilogy's array of trauma-informed approaches put the individual at the center of treatment. We work alongside every person we serve, empowering them to not just participate in their recovery process, but to define and guide it. Trilogy helps people find a way in, a way back, and a way up.

### Trilogy provides:

- Supports to help people stabilize and live independently in the community
- Help transitioning from nursing homes and long-term care facilities
- An integrated health clinic operated in partnership with Tapestry 360 Health and Genoa Pharmacy
- A supported employment program
- An array of outpatient therapies
- Trilogy's First-response Alternative Crisis Team (FACT) provides urgent mobile response and intervention for individuals experiencing mental health crises that are not immediately life-threatening. FACT is currently operating in Chicago's Rogers Park, Edgewater, West Ridge, and Uptown neighborhoods, as well as Skokie and Evanston. Call 800.FACT.400.
- ... and more.
